**PRETTY NEW YORK MAID NOT**

**NEW YORK, May 18.**—[Exclusive  
Dispatch.] Miss Harriet Quinby,  
who was severely injured several  
days ago as a result of a fall while  
flying in her new Blériot monoplane,  
was today declared out of danger,  
and surprised her friends by announc-  
ing that she would not give up fly-  
ing.

"Why, such an accident might have  
happened motoring, or even walking  
on the streets," she said. "I'm not  
going to stop planning just because of  
this. I'm going to make another flight  
as soon as I can get back to Hemp-  
stead."

Miss Quinby has aspirations to be-  
come the first licensed woman opera-  
tor in America. She owns two aero-  
planes and has made many creditable  
flights.

Miss Quinby made a clever flight  
a week ago, and while attempting to  
land the performance turned at the  
east end of the field while apparently  
running over the grass at top speed.  
The result was that the wheels of  
her monoplane buckled and part of  
the running gear was broken. This  
sent the aeroplane over on its side,  
breaking a wing.

Miss Quinby remained in her seat  
and with rare presence of mind shut  
off the power before the arrival of  
the employees of the hangar. She  
was badly bruised, however, and in-  
ternal injuries were feared until to-  
day.

## MARKED BILLS ON AN ASSESSOR.

Alameda County Official is Placed Under Arrest.

Trapped in Oakland by District Attorney.

Deal to Lighten Water Company Tax Alleged.

(ASSOCIATED PRESS NIGHT REPORT.)

OAKLAND, May 18.—Henry P. Dalton, County Assessor of Alameda county, was arrested here late today as he was leaving a downtown restaurant where it is declared he had met a high official of the Spring Valley Water Company. Dist. Atty. W. H. Donahue, by whose order the arrest was made, is authorized for the statement that \$5000 in marked bills were taken from Dalton following his arrest.

Dalton has been County Assessor for twelve years. The Spring Valley Water Company is a giant corporation which supplies water to San Francisco, Oakland and other bay cities, and has large holdings in Alameda county.

As Dalton left the restaurant, near the corner of Ninth street and Broadway, he was stopped by Detective Helms, of the Oakland police force.

"You're under arrest, Mr. Dalton," said Helms.

Dalton hesitated and Donahue, curing a roll of bills.

SEARCHED HIS POCKETS.

"Dalton," said the attorney, "where did you get these? Do they belong to you?"

"Yes, they're mine," replied Dalton.

"Where did you get them? Do they belong to you?"

"None of your business," snapped Dalton.

He denied that he had been in company with any representative of the Spring Valley people in the restaurant.

Dalton's case will be presented in the grand jury tomorrow. Evidence will be offered, Mr. Donahue said to-night, tending to show that, two months ago, Dalton notified the Spring Valley company that their assessment would have to be raised this year. John E. Heban, secretary of the company, entered into communication with Dalton, who, it will be testified, told him that his office had been changed by enactment of the last legislature from a fee basis, paying \$25,000 per year, to a salary basis, with compensation of only \$7000, and that this recompense was not sufficient for Dalton's needs.

A FLAT PROPOSITION.

"We will show," declared Donahue, "that after much discussion, the company received a flat proposition to have its assessment cut \$25,000,000, a saving of over \$50,000 per year on the taxes, instead of being raised, on condition that it should divide this amount with Dalton."

We will show that the company eventually agreed to pay Dalton \$5000 today and \$7500 July 1, and \$12,500 after the assessment had been passed by the County Board of Equalization.

"We will show that today, Dalton met M. C. Eastman, vice-president of the company, in a local restaurant, where he was shown a bill which he pocketed in pursuance of his bargain."

Dalton's office was investigated last year by the grand jury without results. About five years ago Dalton married a Miss Kennedy of San Jose, Cal., and they have been socially active in the city.

The Spring Valley Water Company's assessment in Alameda county last year was \$150,000.

San Francisco Federal Authorities Delay the Matter of Naturalizing a High Caste Asiatic.

(BY DIRECT WIRE TO THE TIMES.)

SACRAMENTO, May 18.—[Exclusive Dispatch.] Tej Singh Bhindra came to Sacramento from Hinduistan, where he was a subject of the United Kingdom of Great Britain and Ireland. His home was in the province of Vilva Bhindra, Tongo Maru, and he is educated and evidently a high caste East Indian.

Tej Singh Bhindra appeared at the county clerk's office here and expressed a desire to take out his first papers for citizenship in the United States. The officials were at a loss what course to pursue. Mongolians are barred from citizenship unless they are born in this country, but Singh Bhindra asserted that he is not a Mongolian, and that as a matter of fact his people belong, and always have belonged, to the Aryan race.

Under the Constitution, he says, people of the Aryan race are subject to naturalization. But the deputies have charge of naturalization matters were not so well informed and they decided to pass the matter along. Consequently, the application was made out and forwarded to the Department of Commerce and Labor. In the interim Singh Bhindra will wait. In similar cases Federal courts have ruled that the evident purpose of the law and the Constitution is to bar from American citizenship all but Europeans; wherefore a Spaniard who may be darker than a Moor or a Hindu, is really admitted because he is a European. Though a Hindu may be white he may be excluded because of his Asiatic origin.

(BY DIRECT WIRE TO THE TIMES.)

KANSAS CITY (Mo.) May 18.—[Exclusive Dispatch.] Miss Louise Collins, 29 years old, an adopted daughter of Mrs. Helen Collins, No. 2521 East Tenth street, will become a Little Sister of the Poor. She is a graduate of Loretto Academy. She is a pretty girl, with charming manners, many good friends and acquaintances and a delightful home, but she will give up all these.

Miss Collins will exchange the comforts of a luxurious home for a nun's vows. Her life of ease will be given up for one of hardship. She will have to arise at 4:30 o'clock every day of the year and spend every day begging for the poor. Miss Collins will spend six months in Chicago as a novice and then she will go to Brooklyn for two years. She does not know where her work will be when she is admitted to the order. She may go to China or Japan, where the order has houses.

During the days of the search instituted by the police and others, little Gladys shrank in the fringe of woods at the northern extremity of Rockefeller avenue, the thoroughfare on which she lives with her grandmother.

Whenever anyone approached her hiding place she withdrew into the underbrush. Only one night of the five did she venture out of her hole, and that was when a storm came up. Then she slunk panic-stricken into a barn, to await the cat.

These statements brought slowly from the child, proved to physicians that Gladys had been under the influence of a powerful drug. Her condition is improved today. Gladys Johnson and her two sisters are orphans, whose parents were members of the Red Men and Degree of Pocahontas. These lodges have interested themselves in her case and intend to make an investigation of the circumstances that led to such extreme fear of punishment in school, as a result of her manipulation of her report card.

WANTS A RENO DIVORCE.

(BY DIRECT WIRE TO THE TIMES.)

RENO (Nev.) May 18.—[Exclusive Dispatch.] Cora Isabel Westcott, known here as Cora Westcott, of the prettiest and most popular members of the divorce colony, today filed suit for divorce from Capt. C. T. Westcott, attached to the United States Marine Corps in Baltimore.

A new ruling in the County Clerk's office, which forbids public inspection of divorce papers, has prevented Westcott's allegations from being ascertained, although it is intimated that incompatibility of temperament is the ground for the action. Before her marriage Mrs. Westcott was Miss A. B. Westcott, one of the wealthiest and best known families in Baltimore. She was a bright society light. When Westcotts have not been many years married and no children were born to them.

## THE CONTEST OPENED WITH A RUSH.

First Day of Competition Showed a Remarkable Spirit of Determination on the Part of the Contestants—Results Are Shown from the Top of the Bell—Get in Now and Participate in the Early Business—Only One Day Has Gone By—There Is Time to Start With the Beginners.

If the opening day is an index to the days to follow in the Los Angeles Times Greater Contest, there will be some warm competitive work. A never-ceasing stream of contestants came to The Times office yesterday for subscription books, and before the day was over a race was on that ought to show some going. The entry list is still open—in fact, it will not close until the end of the contest. Of course, it is desirable to enter as early as possible, in order that too great a handicap will not be had by those who entered before you; still a live wire will always manage to keep up to date, so whether you started the first day or later, you have a running chance at all the prizes.

Remember, with the list already announced, and the prizes to be added from time to time as the contest grows older, there will be more than ONE HUNDRED PRIZE WINNERS. No matter when you start, you would hardly fail to get in the first hundred at the close.

This contest will extend over a period of several months, and some of the weaker contestants will retire from time to time. Do not be one of the weak ones. Stick to the finish, and for yourself a reward that will compensate you for the time and labor expended. Don't let a lead of 100,000 points frighten you. There is plenty of time to work, and a RACE IS NEVER RUN UNTIL IT IS OVER.

Get in line and get the benefit of the first work. There is no economy in giving away a prize, even though you have confidence in your ability to overcome it. YOU CAN WIN A PRIZE EVERY WEEK IF YOU LEAD.

Within a few days an announcement will be made of the prizes to be awarded every Monday morning to the contestant receiving the highest number of points for the week ending Saturday at noon.

Every month, and on special occasions prizes will be offered and awarded on the basis of the greatest number of points for the specified period.

Can you beat that? And bear in mind, that The Times stands behind every promise made to contestants. Every prize will be awarded as agreed, and EVERY PRIZE is of the FULL VALUE GUARANTEED.

CUT OUT THE NOMINATION COUPON, FILL IT IN PROPERLY, AND ENTER THE CONTEST TODAY.

## SHRINE SHOW REAL TRIUMPH.

Decided Hit of Yellow-Coated Boys at Mason.

Interlocutory Jokes Mingled With Telling Songs.

Ensuing Olio of Professionals. Huge Audience.

The average good show considers this town nowadays really good for a two-weeks' stand.

The very good show finds a week highly profitable.

But occasionally there is an attraction of Bernhard or Metropolitan opera order which condescends to spare us but three evenings.

And in this class comes that masterful mélange of mighty and meritorious merriment, the Shrine Minstrels, who tore their way into the

Mme. A. Tromben-Lebegott, grand-opera singer heard in the second part of the Shrine minstrel performance last evening.

heart of popularity at the Mason Opera-house, and who, by the grace of King George, President Taft, Insurrecto Madero, their own sweet will and "Censor Guy Eddie, will continue on their hilarious way for two more unforgettable evenings.

The purpose of this Shrine entertainment is to raise a big boost fund for our trainload of evangelistic pilgrims to Rochester, and if last night's huge audience is indicative of the rest of this special and unprecedented engagement, the Al Malakiah folk will be able not only to hire a train, but leave the road as well.

Ask a man who has just received a splendid cranial concussion on the ice which star in his several constellations looked the biggest, and your question will be just as liable to receive an answer as though you inquired as to the bright particular luminary of last night's season of joy and "third-act scenery."

There was a professional end, and there was an unprofessional end, and not a word of a scandalous nature would have been able to tell them apart.

First of all, there was a big symphony orchestra under the long-experienced baton of George Towle. The overture finished, a resolute male chorus was heard behind the curtain, and that certain roar in absolute darkness, while the singing continued.

As all the lights came on in a dazzling flash there were revealed two rows of minstrels whose only yellow streak lay in their canary garb.

While back of them was disposed the body of the Ellis Club, in black face and "third-act scenery."

Interlocutor L. C. Spruance, disposed upon a massive chair in the center, gave his several constellations looked the biggest, and your question will be just as liable to receive an answer as though you inquired as to the bright particular luminary of last night's season of joy and "third-act scenery."

Mr. Bridges delighted first with his sentimental ballad, "I Think I Must Be Love," after which he convulsed the house with his ridiculous "Dance of the Iron Men." (This is a secret and cannot be given away in detail to those who have not seen the show.)

Dudley Buck's "Vocal Combat," in which tenors and basses indulge in a routine contest of strength, next engrossed the Ellis attention, under Mr. Poulin's spirited direction.

"Bones" Eddie Kelly, Billy Boyle, Leo Youngworth and Johnnie Hoff, in their violent efforts, offered by "Tambourine," which Pauline, Bryson, "Hins" Krohn and Jack Schultz, in the circle were L. A. Houser, P. C. Collier, E. C. Houser, A. J. Copp, Jr., Gen. Robert Wankowski, Leo Gibson, T. M. Bridges, R. Plister, George T. Cline, George A. Fitch, George Ragland and Elmer Ingram.

## FALLS FROM FOURTH FLOOR.

But Indian Inspector Suffered No Broken Bones and Will Live.

(BY DIRECT WIRE TO THE TIMES.)

RENO (Nev.) May 18.—[Exclusive Dispatch.] Walking in his sleep from his room on the fourth floor of a local hotel, James W. Perry, inspector in the Indian school at Carson, early this morning went crashing through the glass to the concrete pavement and tonight the hospital doctors say he will live. Perry, who was educated in Carlisle, came from the capital last night in charge of a score of his pupils to see a circus. Examination failed to find any broken bones.

diene, showed an extraordinary number of difficult and rapid changes of temperature, calling for a complete renewal of attire.

"Aurora," classic and modern dancer, closed the evening with a rapid terpsichorean performance. The well-meaning programme announces that Miss Aurora comes from the French "Follies de Berger."

This programme, by the way, is some affair in itself, being bookishly heavy with high-class advertising, the whole being printed on heavy plate paper in excellent style.

The minstrels will minstrelize again tonight.

ONE ACT FARCE  
Two Sprinklers who turned out in gala costume yesterday to provoke smiles from onlookers and incidentally advertise the Shrine minstrel at the Mason Opera-house, temporarily dropped their smiles when they paraded past the Central Police Station yesterday shortly after noon for

Lieut. Murray, standing in the doorway of the station, ordered officers to arrest Frank M. Bryson, County Public Administrator, and H. C. Brodie on charges of parading without a permit.

The prisoners in the jail enjoyed the sight for several minutes of seeing the Shrine parade around the tank and then Lieut. Murray, after asking them if they were thirsty, ordered their release.

The parade formed again and continued to the opera-house, where the festivities take place.

"I don't want you to think I am criticizing, but let's it rather far to place a man in jail even for fun," Jailer Shand asked Lieut. Murray after the Shrine had been released. "They might not take it as a joke, and make trouble."

"Cease thy fear and trembling. They asked me this morning to do it to help advertise the show."

UNIONITE BARES WEIRD DREAMS.

ACCUSES ERECTORS' ASSOCIATION AS DYNAMITERS.

Makes Affidavit That National Organization Blew Up Buildings Erected by Non-Union Workmen. Claims He Wasn't Paid for Information Given.

(ASSOCIATED PRESS NIGHT REPORT.)  
PITTSBURGH, May 18.—James Elliott, a structural ironworker of this city, appeared before labor leaders here tonight and made an alleged confession in which he charged officers of the National Erectors' Association and detectives employed by it with wrecking buildings throughout the country constructed by non-union labor.

The alleged confession was made to William Kelly, president of the Iron City Trades Council, A. L. Collins, secretary of the Structural Ironworkers' Union, and H. W. Leggett, vice-president of the International Association of Bridge and Structural Ironworkers. It was sworn to before a notary.

The labor leaders then turned Elliott over to the police, who are holding him for further investigation. The affidavit was not given out, but in his statement to the police, Elliott said he had made the confession because he was not paid for information furnished the Erectors' Association, and for which he was promised \$1000.

PHYSICIANS STUDY LEPROSY.

Paper on "The Etiology of the Erythematous Hemorrhagic Type of Fever" Read at New Orleans.

(BY DIRECT WIRE TO THE TIMES.)  
NEW ORLEANS, May 18.—[Exclusive Dispatch.] Lepers in advanced stages of the disease stood before a roomful of assembled physicians today at the convention of the American Society of Tropical Medicine.

The three victims of the mysterious malarial fever, which was the subject of the discussion, were viewed at close range and discussed at length. Newspaper men edged near the door, but were laughed at for their fears, and stuck it out.

The lepers were brought from the Louisiana Lepers' Home, which is on the Mississippi River bank, a score of miles from New Orleans.

Leprosy was the leading topic of the day's discussion. One of the most interesting papers came from Dr. Crayton Wellman of Oakland, Cal., who described the use of salvarsan, a serum being tested in California. Physicians are present from China, Panama, nearly all the other Central American countries, and from the Philippines.

So is Miss Beale Bernstein, who is a physician from Christiana, Norway. Just what tropical diseases she expects to encounter in her practice has not been explained.

Malaria, yellow fever, blackwater fever, sprue, amebiasis, and snakes are among the things on the programme for discussion. Pellagra will take up almost an entire day.

Lay visitors to the convention were deeply interested in a paper entitled "The Etiology of the Erythematous Hemorrhagic Type of Blackwater Fever," but didn't learn much, after all.

The launching at Camden, N. J., of the latest motor yacht, being built by Alexander Winton of Cleveland, puts about the most pretentious vessel of its kind in the world. The yacht is of steel and 140 feet long, will cost \$150,000 and will be driven by three engines of 200 horse power each.

"Niagara Maid" SILK GLOVES

THE Finger-tip is the vital spot in the silk glove. In "NIAGARA MAID" Silk Gloves, the finger-tip is, perhaps, the sturdiest part, for the reason that the entire glove is made from absolutely pure silk, treated by the Niagara process, and each finger-tip has double thickness. Together with this, a guarantee ticket accompanies every pair, insuring perfect satisfaction to the wearer.

They sell for the usual silk glove prices, and may be had at all good stores.

ROGERS TOOK CHILD TO GET WEALTH FROM GRANDFATHER.

Ex-Convict Alleged to Have Been Accomplice of New Mexico Man Must Stand Trial on Charge of Extortion From Millionaire Officer of the Santa Fe—Lynchings Threatened.

(ASSOCIATED PRESS NIGHT REPORT.)  
LAS VEGAS (N. M.) May 18.—Will Rogers, pleaded guilty today after the trial of his alleged accomplice, Joe Wiggins, in which he is expected to be principal witness for the State.

The indictment charges Rogers and Wiggins, entered the Rogers home with intent to assault and threatening to murder Mrs. A. T. Rogers, mother of the kidnapped child, for the purpose of extorting from her \$12,000 ransom.

These charges were included in the indictment because there is no statute in New Mexico, defining or providing punishment for the crime of kidnapping.

Little Waldo Rogers was stolen from the family home the night of March 29 last, and returned to his parents twenty-four hours later upon the payment of a ransom of \$12,000.

Will Rogers, who is 22 years old, is the uncle of the stolen child. The ransom money was discovered in the chimney of Rogers' room. There is a strong feeling in Las Vegas against the prisoners, and the utmost precaution is being taken to guard them from violence. They have been confined in the State prison in Santa Fe since their arrest two weeks after the commission of the crime.

MANY JOIN ORGANIZATION.

Former Residents of Colorado Meet to Form Association, and Two Hundred Enroll as Members.

Preliminary arrangements for the organization of the Colorado Association of Southern California, were made at a well-attended and enthusiastic meeting of former residents of Colorado at the Lankershim Hotel last night. The meeting was called to order by Mrs. H. V. Stevens, formerly of Denver. A strong address on the "Value of State Organization," was made by C. H. Parsons, secretary of the Federated Societies. Funds were served by Mrs. Davis, wife of one of the proprietors of the Lankershim.

Temporary officers were elected to build up the association. Already 200 names have been enrolled. Cooper and Davis of the Lankershim, both Colorado men, are among the enthusiastic members. H. T. Forsyth and A. T. Warren were named president and secretary, respectively, until a regular election is held. The association will meet at the Lankershim next Thursday night, and until permanent quarters are obtained.

Suit Involving Contract Decided in Favor of Bookkeeper-Salesman for Services in Justice's Court.

Harry B. Little was yesterday awarded a judgment of \$135, the total amount asked in a suit against the Altland Fruit Company, brought before Justice Forbes. This followed a strenuous dispute about a contract for personal services.

Little asserted that he had been promised \$100 monthly as bookkeeper and salesman with stock in the company which was to be given him from time to time. He said he had received \$85 from June, 1910, to January last, with 500 shares of stock. The company, through Attorney Alender, asserted that Little had been promised only what the business would bear in the way of salary.

## THE PUBLIC SERVICE.

The North Side annexation project is to be enlarged, and a new petition, asking a full share of all the municipal debt, filed.

A three-month-old baby was arrested yesterday on a bench warrant from Judge Wilbur's court. The action was taken in order that the child might be given proper medical attention.

An accounting is demanded of a local real estate operator who is alleged to have juggled the affairs of a \$250,000 subdivision for several years, which he denies.

Two boys who attracted the attention of the police because they kept company with men of the L.W.V. type were arrested yesterday, found to have revolvers in their pockets, and sent to jail.

## At the City Hall.

## NOT AFRAID OF BIG CITY DEBT.

## NORTHSIDE ANNEXATION PROMPT TO PAY FULL SHARE.

Petition Before Council to be Withdrawn and New One Circulated. District Enlarged to Touch San Fernando Road Near Tropico, Leaving Out Part of Belvedere.

There will be no conflict with the big annexation district of the north and east about its sharing in the municipal debt of Los Angeles if it is admitted. The promoters of this big addition to the city are to meet this afternoon at the office of A. W. Allen, in the Central building, to adopt a new description of territory to be included under a new scheme and to decide formally to withdraw the present petition before the Council.

It is the purpose to offer the territory to the city on the condition that it will assume a full share of all municipal indebtedness and this will mean a big help to the sinking fund for the territory to be offered is valued highly and is to be enlarged. Originally, under the petition now pending before the Council and which does not provide for a full share of the debt, the New York Valley, Hermosa, Fairmount and Belvedere are included. In the new petition the line will be enlarged to include all that territory north of the present city limits to the city limits of 1928 and the great Arroyo Park system possible under the annexation plan, though this is an ultimate and not an immediate purpose.

There is no likelihood that the withdrawal of the present petition will meet objection though there is question as to whether it may be legally withdrawn. That it will not ask to share in the debt of the municipality caused the Board of Public Works, the Public Service Commission and the City Attorney to join in hostility to it or any similar project in the future. They held that the territory should bear at least some of the debt. Such hostility would have endangered the petition in election. The north side district now goes further and sets a precedent by offering to assume its share of all debt.

As the new law under which the debt may be assumed will not be in effect until late next month the new petition will not be in circulation until about July 2.

An annexation echo came yesterday when City Auditor Sherk notified the City Auditor that the former owner of a quarter section of land in Sunny-side Addition, and Emil Firth, the agent who handled the property for him, had brought into the courts yesterday for the second time.

Four months ago Firth sued Dr. Smith in an attempt to force him to sell the property to him. Firth said he had sold under contract. Yesterday McNutt and Hannan filed suit for Firth to obtain from Firth a complete statement covering the handling of the large property.

Firth is accused of making fictitious sales of parts of the property at the minimum price an acre, and taking the assignment of contract up in his own name and making subsequent sales at a larger price. This method of dealing, Smith alleges, has involved him in numerous suits and it has made it impossible for him to safely deal some of the lots. He further charges that Firth has failed to keep his contract in many particulars, has sold lots against his protest after the life of the contract has expired and has charged him for all improvements made on the property.

Firth, who was arrested yesterday, denied Smith's allegations.

"I handled the property for Dr. Smith," he said, "during the two years of our contract, and I sold about 140 of the 160 acres for \$40,000 more than Dr. Smith expected to get out of it, and for that much above the minimum specified in our agreement."

In the near panic of 1927, about twelve months ago, Firth was unable to complete the contracts and desired to turn them back to Dr. Smith, who had no part in this, and to protect the whole tract from a stampede away from us, I personally took the assignments of the twelve who wanted to quit and when times were good again, and property was advancing, I sold them at a better price than they originally were paid for."

Dr. Smith knew what I was doing, because I gave him a chance to do the same thing first, and he would not. He told me I was free to do as I pleased, and he did not object to my selling under the circumstances. When I resold the first six lots, Dr. Smith gave me the new purchase price and I sold the last six lots, prices were so good that he repented not having taken the property, and he himself, and he refused to give me purchasers their deeds. It was then that I filed suit in an effort to force him to do so, and his present suit is really only an answer to my own."

## SMOKERS' SEATS.

## THE LADIES FILL 'EM.

J. Herman Asgaard, who rides on Grand avenue cars, and has studied the facts, has asked the Council to investigate the abuse of the front end—the smoker's ordinance end—of street cars by the ladies.

Asgard asserts in a communication to the Council that twelve front seats are usually occupied by from six to eight women, and consequently the mere man smoker cannot sit.

He suggests that the ordinance be repealed unless the ladies go way back and sit down, where there is usually more room.

## Wants Alcohol Law.

M. S. Cummings, No. 1302 West Twenty-second street, urges in a letter to the Council legislation restricting the sale of alcohol. He declares drug stores are selling it in large quantities to poor men who mix it with water and sugar and get drunk. He suggests that the sale of alcohol be limited to physicians' prescriptions or upon the affidavit of the purchaser that he does not intend to use it for a beverage.

## Blahon, Not Curran.

N. L. Blahon, president of the Sixth Ward Central Improvement Association, and Garner Curran, president of the Federated Improvement Association, were surprised at the recent publication that Curran, as the representative of the Federated association, had drilled Lissner's Board of Public Utilities. Through inadvertence Curran was placed in Blahon's position for it was Blahon, and not Curran, who spoke the severe words before the Council in condemnation of the utilities department.

Ask City to Help. President Blahon and Secretary

Wiggins of the Chamber of Commerce asked the Council Finance Committee to consider an appropriation of \$10,000 for entertainments during the coming year. The fund is to be used in adding large conventions, a charge that has always been borne by the chamber and merchants. As it is becoming burdensome, the chamber believes the city should assist, as the conventions inure to the benefit of the whole people. The committee said it would consider the request with the budget making.

## ARREST BABY ON BENCH WARRANT.

## COURT INTERVENES TO SAVE IT FROM DYING.

Infant Three Months Old Probably Youngest Person Taken Into Custody in the County—Career Checkered, Including Kidnaping From Children's Hospital.

The record for juvenile arrests was broken yesterday, when Marguerite Hernandez, three months old, was taken into custody on a bench warrant from Judge Wilbur's court.

In order that the infant, who is seriously ill as well as being naturally frail, may have a chance for life, it has been necessary for the Humane Society to invoke the process of the court in her behalf.

The society discovered her condition several days ago. According to their reports, seven children of the family have died, and she is the last of the flock. They sent a physician to examine her, and medicine was placed at the disposal of her parents.

"Her father is charged with having thrown away the drugs."

The baby was then taken to the Children's Hospital. She was in such a serious condition that there was considerable doubt whether or not she would live.

In a few days a woman appeared, who declared she was the child's mother and desired to take her home and nurse her. The heads of the institution had never seen the mother and did not know all of the circumstances of the case. They permitted her to take the infant away, and she took Marguerite to her home.

Home Officer McLaughlin, who was especially interested in the case, made inquiries at the hospital and did not know all of the circumstances of the case. They permitted her to take the infant away, and she took Marguerite to her home.

It was then determined that the case should be put under the jurisdiction of the courts. The circumstances were related to Judge Wilbur and he issued a bench warrant for her arrest and returned to the hospital. The authorities there will be given power to keep her until she has fully recovered.

## COURT VACATIONS.

## COME IN FEW MONTHS.

August 21 to September 21 has been officially designated as the vacation period for the Superior Court, presiding Judge Hutton explained yesterday that this does not mean that the courts will not be in session, but that no party will be forced to go to trial during that time.

Vacations have been arranged for by the various judges as follows: Rives, August 21 to September 21; Fink, October 1 to November 1; Conroy, July 25 to September 1; Monroe, July 17 to September 1; Craig, June 1 to July 1; Williams, June 26, one week, and the remainder at irregular periods; Bordwell, June 5, one week, and the remainder at irregular periods; Bordwell, June 5, one week, and the remainder at irregular periods; Bordwell, June 5, one week, and the remainder at irregular periods.

## QUARREL RENEWED.

## CHARGES MADE AND DENIED.

The real estate quarrel between Dr. C. Edgar Smith, the former owner of a quarter section of land in Sunny-side Addition, and Emil Firth, the agent who handled the property for him, was renewed yesterday for the second time.

Four months ago Firth sued Dr. Smith in an attempt to force him to sell the property to him. Firth said he had sold under contract. Yesterday McNutt and Hannan filed suit for Firth to obtain from Firth a complete statement covering the handling of the large property.

Firth is accused of making fictitious sales of parts of the property at the minimum price an acre, and taking the assignment of contract up in his own name and making subsequent sales at a larger price. This method of dealing, Smith alleges, has involved him in numerous suits and it has made it impossible for him to safely deal some of the lots. He further charges that Firth has failed to keep his contract in many particulars, has sold lots against his protest after the life of the contract has expired and has charged him for all improvements made on the property.

## MURDER CHARGED.

## DICK'S HEARING IN JUNE.

Deacon Chelebian, under the alias of Thomas Dick, was arraigned before Police Judge Rose yesterday afternoon on a charge of murder and held without bail for preliminary examination June 6.

Chelebian, or Dick, as he prefers to call himself, is alleged to have shot and killed Samuel Underwieser during a quarrel resulting from business rivalry. The shooting occurred December 30. Both men were employed and had shops in adjoining buildings on South Grand avenue. In the strong competition that developed they repeatedly cut their prices and Underwieser steadily gained in the volume of work he secured.

About 8 a.m. December 30, Dick, according to the police, provoked a quarrel with Underwieser, who drew his revolver and fired five shots, three of which took effect. Underwieser died a few hours later in the Emergency and General Hospital.

## Slavonian Hold.

Anton Breck, who shot Steve MacNeil, proprietor of a Slavonian restaurant on Ord street, last Monday, will give a preliminary examination before Judge Chambers on the 25th. He was arrested yesterday afternoon on a charge of assault with intent to murder. Breck was set at \$2500, but he was unable to furnish that amount.

## Change Decides It.

THE name of Miss Pickle Fortune does not appear on the list of jurors who sat in a liquor case in Police Court yesterday morning, but Attorney Domeneque, backed up with the affidavit of one of the jurymen, declares she decided the trial. This morning he will ask for a new one.

The case is that of L. R. Davis, proprietor of the Westminster Annex, near Fourth and Main streets, charged with having sold liquor without a license. "Guilty" is what the foreman of the jury announced when the returned late Tuesday night, and sentence was to have been passed today. Yesterday Thompson Domeneque, declared one of the jurymen told him the jurors had "flipped" a dollar to determine the verdict when they could not agree otherwise.

Alleged Tip That United States Marshal Would Give Accused Attorney the Worst of It, Cause of Verbal Encounter—Defense Keeps Hand Under Cover.

With the clearing away of the legal underbrush and the selection of the jury, the taking of testimony in the trial of Attorney F. H. Thompson, charged with having received and concealed \$15,000 stolen from the Los Angeles postoffice by Delano F. Altorre, will begin this morning in the United States District Court.

The money was part of a package of \$30,000 in transit from the First National Bank of this city to a bank in Biebee. The first witness today will be testimony concerning the ordering of the money from the First National Bank.

Capt. H. Z. Osborne, who had been appointed by the court for the purpose of keeping account of the twenty-five persons for jury service, appeared with his panel yesterday at the opening of court at 2 o'clock. Seven of the number were discharged by Judge Wellborn for business and other reasons. At 4 o'clock the panel had been completed, the jurors being as follows: John D. Young, John Beutner, Henderson Y. Campbell, C. R. Ingersoll, Charles W. Barker, Harry L. Zeller, C. H. Parsons, Arthur L. Hooper, C. C. Pierce, Charles L. Wilson, George H. Hanley and A. J. Carey.

The high spot of the afternoon's proceedings was the denial entered by Attorney Wallace Widaman to a statement made by Thompson the day before that "Caldman" had charged United States Marshal Youngworth with embezzlement. Widaman denied that he had ever talked to Thompson in regard to the trial, and declared specifically that he had never said that Youngworth was "a (Thompson's) enemy."

## A BOYS SENTENCED.

Find Them Carrying Revolvers in Haunts of the Elders and Police Judge Tells Them They are On the Wrong Road; Send Them to Jail For Twenty Days.

Take a boy, a gun and liberty, mix well and place in a railroad yard, and the result will be either an L.W.V. or a highwayman, or both. This was the theory advanced by Police Judge Wellborn yesterday when Harry Hall, William Smith and John Middleton were arrested near the gas works on Palmdale street and taken to the City Jail on a charge of having concealed weapons.

The boys were loitering about Palmdale street and had large revolvers in their pockets. Hall and Smith are about 20 years of age. They were charged with carrying concealed weapons. Middleton, who is but 15 years old, was charged with carrying a revolver.

In the eyes of the police boys of this age are more dangerous than armed men, because they are not yet under the influence of the law. They are excited and shoot.

They told Police Judge Chambers that they had been in the habit of carrying weapons and wandering about the country as they saw fit.

It is this class of youths that cause most of the hold-up trouble for the police. Police Judge Chambers said, "Police boys were arrested by Patrolmen Watson and French. The attorney of the officers was first drawn to the boys when they saw them in company with habitual loafers of the L.W.V. type. Had they been by themselves they would not have been arrested, but the police were instructed to separate boys from hobos."

The attorney of the officers was first drawn to the boys when they saw them in company with habitual loafers of the L.W.V. type. Had they been by themselves they would not have been arrested, but the police were instructed to separate boys from hobos."

Take a boy, a gun and liberty, mix well and place in a railroad yard, and the result will be either an L.W.V. or a highwayman, or both. This was the theory advanced by Police Judge Wellborn yesterday when Harry Hall, William Smith and John Middleton were arrested near the gas works on Palmdale street and taken to the City Jail on a charge of having concealed weapons.

## JURY TOSSES COIN IN LIQUOR CASE, "TAILS" CONVICTS ACCUSED.

## Change Decides It.

THE name of Miss Pickle Fortune does not appear on the list of jurors who sat in a liquor case in Police Court yesterday morning, but Attorney Domeneque, backed up with the affidavit of one of the jurymen, declares she decided the trial. This morning he will ask for a new one.

The case is that of L. R. Davis, proprietor of the Westminster Annex, near Fourth and Main streets, charged with having sold liquor without a license. "Guilty" is what the foreman of the jury announced when the returned late Tuesday night, and sentence was to have been passed today. Yesterday Thompson Domeneque, declared one of the jurymen told him the jurors had "flipped" a dollar to determine the verdict when they could not agree otherwise.

Alleged Tip That United States Marshal Would Give Accused Attorney the Worst of It, Cause of Verbal Encounter—Defense Keeps Hand Under Cover.

With the clearing away of the legal underbrush and the selection of the jury, the taking of testimony in the trial of Attorney F. H. Thompson, charged with having received and concealed \$15,000 stolen from the Los Angeles postoffice by Delano F. Altorre, will begin this morning in the United States District Court.

The money was part of a package of \$30,000 in transit from the First National Bank of this city to a bank in Biebee. The first witness today will be testimony concerning the ordering of the money from the First National Bank.

Capt. H. Z. Osborne, who had been appointed by the court for the purpose of keeping account of the twenty-five persons for jury service, appeared with his panel yesterday at the opening of court at 2 o'clock. Seven of the number were discharged by Judge Wellborn for business and other reasons. At 4 o'clock the panel had been completed, the jurors being as follows: John D. Young, John Beutner, Henderson Y. Campbell, C. R. Ingersoll, Charles W. Barker, Harry L. Zeller, C. H. Parsons, Arthur L. Hooper, C. C. Pierce, Charles L. Wilson, George H. Hanley and A. J. Carey.

The high spot of the afternoon's proceedings was the denial entered by Attorney Wallace Widaman to a statement made by Thompson the day before that "Caldman" had charged United States Marshal Youngworth with embezzlement. Widaman denied that he had ever talked to Thompson in regard to the trial, and declared specifically that he had never said that Youngworth was "a (Thompson's) enemy."

## City Sealer of Weights and Measures Goes After Commission Men Whose Berries Are Light.

As a result of an examination of strawberry boxes, made Wednesday afternoon in the Sixth-street market, by Samuel W. Green, City Sealer of Weights and Measures, complaints were issued by Assistant City Prosecutor Smith against five commission merchants. The defendants named in the complaints are Zaiser Bros., Rivers Bros., Marston & Martin, J. W. Milton and E. M. Walcott.

The city ordinance requires a "box" to contain twelve ounces of strawberries. The berries weighed yesterday were said to fall from one to two ounces short of the required amount. The complaints will be filed in Police Judge Chambers' court this morning. Several others, Green indicated, will follow.

## Which Bank?

## This question will arise naturally when you seek a depository for your idle money or you make up your mind to begin a savings account.

What you want most is Security, and the certainty of earned interest.

This is not only the Oldest, but the Largest, Savings Bank in the Southwest.

Its directors who control all investments and loans—and really direct—are among the most prominent and substantial citizens of Los Angeles.

In all its twenty-two years of business this Bank has been under practically the same management.

any strikes us as an appropriate manner of doing a thing. It is not done by a nose, that prominent member never fails to proclaim the work that will be done. The Greeks could not be other than artists with the fine Grecian nose, nor could they survive by the same means. The Jews could not be conquerors with that crook in their nose any more than Napoleon Bonaparte could have been a conqueror with any other sort of nose. Napoleon simply had to win nine battles out of ten with that nose for company. The Jews could not be other than successful financiers with that nose. The racial nose. The Hebrew nose is obliged to deal with realities and is compelled to succeed. It belongs to a chosen and an aiding people because it is the nose of the people. The man whose nose turns up is the man whose nose is the nose of the people. The man whose nose turns down waits for his fight until he knows he will win. The man with the straight nose is an artist because it is in his system to be, and the man with the very high nose would give away the world if he did not. It is not the horse alone that may win or lose by his nose. Persons and races are the same thing.

That the foreign workers thoroughly comprehend the advantages enjoyed by American workers is evidenced by the fact that 1,600,000 of them have come to this country every year. There is, it is true, an outgoing current of workers from our shores. The foreign laborer who is industrious and economical can, in a few years, save enough money to return to his native land and live in comfort. Or, as is often the case, he will, after exhausting his surplus, again come to this country and begin over again.

That the general level of prosperity and the wages of the workers are higher than in any other part of the world is due largely, if not entirely, to the Republican policy of free trade and free immigration. Many who oppose protection that it is a policy which excludes our goods from foreign markets, except for articles which—for exceptional

## FACTS NATURES AND FANCIES WOMEN.

—Olin Gray

BEAUTY HINT: With the approach of summer, those who  
with kind and sore feet begin to cast about for some relief. A  
specialist has prepared a lotion to be used in such cases.

It is not possible to see an old  
woman decked out in  
fashion. In many  
cases, the woman who  
is called "old" is  
really a young woman  
who has been so  
long in the world that  
she has learned to  
wear the things that  
are called "old".  
The woman who is  
called "old" is not  
necessarily old. She  
may be a young woman  
who has been so long  
in the world that she  
has learned to wear  
the things that are  
called "old".

Juliet Caps  
But the Juliet caps? There is a  
fashion which all young girls  
are taking to adopt forthwith. I imagine.  
The new ones, just imported from  
Paris—I saw them in a Broad-  
way store—are pretty enough to use  
as bric-a-brac. They are of bronze  
cord—or of old silver mesh in heavy  
quality—and are set with beads in  
Oriental colorings. One was of sil-  
ver and turquoise. I could imagine  
it upon the golden hair of a certain  
girl and I hope she will have one for  
her commencement finery.

Call It Strawberry Short-Cake.  
Waffles piled high with luscious  
strawberries, then dusted with  
sugar and cream? Call it  
short-cake if you wish, but what-  
ever it is called, it is a dish that you  
will never cease to recall.

Fabric Shoes.  
Among the newest pumps and high  
shoes, satin and velvet are still very  
popular. They come in various shades  
and colors this season, such as brown,  
green, gray and tan. One of the pret-  
tiest and newest pumps is a dove gray  
velvet with a square velvet bow, or  
a buckle covered with gray velvet.  
A square bow of grosgrain ribbon.  
The high shoes, or, rather, the boots,  
are inclined to have a longer vamp  
than last season, although there are  
persons who, having adopted the  
short vamp, insist upon them.

Shaming the Worms.  
So cheap are silk dresses this season  
that I should think it would make  
the silk worms blush to see the prod-  
ucts of their labor at so low a price.  
Less than the smallest gold piece for  
an afternoon dress of silk! That is  
what they were at a Broadway sale.  
And now come a sale of taffetas by  
yard, in all the favorite colors,  
for half a dollar.

Scotch.  
The most fascinating of wares, to me,  
is that Scotch ware in brown and  
yellow, with its motives in the dia-  
lect. I saw a collection of it in one  
of the big stores. The teapots in-  
vited you to take a wee sup, and the  
bowls spoke about porridge in the  
old Scotch talk, which always savors  
of hospitality.

In Fashion's Language.  
Flowers on all millinery run to  
one or other extreme. There is either  
profusion of large flowers, covering  
crown and possibly also brim, or  
there are tiny bunches of small  
flowers huddled closely together, and  
set at wide intervals.

Satin, either the real article or the  
cloth-backed variety, is to be really

THE LATEST FASHION HINTS FROM PARIS.

There will be an orchestral concert  
and art tableaux in the music room  
and a studio tea in the art room on  
this floor going on simultaneously  
and at the same time—a perfect be-  
wildering of attractions, you see.

On the seventh floor there will be per-  
haps the most novel of all demon-  
strations—a model hospital ward will  
be fitted up where, under the super-  
intendence of Dr. Mary Putnam and  
a corps of trained nurses, actual  
demonstration of how to treat such  
commonplace and everyday accidents  
as burns, scalds, fainting, injury by  
live electric wires, etc., will be given.  
You will see these patients convalesc-  
ing from nervous breakdown, typhoid  
fever, grippe and pneumonia, skill-  
fully and scientifically treated. There  
will be children suffering from such  
infantile diseases as measles, croup  
and scarlet fever and you will see ex-  
actly how they are cared for.

Now do not for a moment imagine  
that these patients are to be bor-  
rowed from hospitals for this  
occasion and that they are actually  
suffering from the dire diseases above  
mentioned. Oh, no! They are merely  
playing the part of patients and con-  
siderable fear is entertained on the  
part of the anxious attendants lest  
the mischievous child who is sup-  
posed to be suffering from  
fever, or the demure maid reclining  
in her convalescent's chair, forget  
themselves so far as to smile cheer-

Nothing less than to present a play  
in the Latin tongue. Fancy these  
young things dealing in a dead lan-  
guage to this extent. This comes of  
this evening.

As a matter of fact, in order to get  
a general idea of all that is taught in  
this mammoth, popular, educational  
factory, you should go both this  
evening and tomorrow afternoon, al-  
though either entertainment will fill  
your soul with wonder and leave you  
gasping at the idea of all that is  
here accomplished.

Oh, yes, I quite forgot to mention  
that the school of cooking will have  
one of the most fascinating exhibits  
of all. The most delicious candies  
will be made right before your eyes  
by a corps of white-clad girls and  
there will be a sale of these and other  
delicacies concocted by these accom-  
plished cooks whereby you can sam-  
ple their products.

For all this list of entertainments  
—and many others I haven't men-  
tioned—you pay a quarter admission  
fee at the door to cover the expense  
of producing this stupendous array of  
attractions.

Smart high shoes are of white  
buckskin, with scalloped edges and  
large white pearl buttons. On the side  
opposite the buttoned edge the shoes  
are ornamented with a design in white  
crystal beads.

Peace, Perfect Peace.  
The woman — who  
framed up the programme for the  
suffrage session at the Federation of  
Women's Clubs at Long Beach the  
other day ought to be canonized for  
shrewdness. The endorsement of  
universal peace just previous to the  
resolution for equal suffrage was  
significant. Reminds one of the an-  
nouncement made in Westminster  
Abbey when the late King Edward  
was so ill just previous to his coro-  
nation. The officiating clergyman at  
the vesper service had just announced  
to the congregation that His Majesty  
was recovering from his attack of ap-  
pendicitis and immediately followed  
this remark by saying: "Now, let us  
sing 'Peace, Perfect Peace—in the ap-  
pendix' referring, of course, to the  
appendix of the hymnal."

Try an Electric Buzzer.  
An eastern florist who was visiting  
here once remarked to me as we ad-  
mired the display at a flower show:  
"The only difficulty with your Cali-  
fornia displays is that you ruin the  
artistic beauty of a bouquet by crowd-  
ing too many blossoms into it."

I thought of this remark the other  
day when I sat through a session of  
the association that His Majesty  
was recovering from his attack of ap-  
pendicitis and immediately followed  
this remark by saying: "Now, let us  
sing 'Peace, Perfect Peace—in the ap-  
pendix' referring, of course, to the  
appendix of the hymnal."

On the fifth floor there will be gym-  
nastics and folk dances, begin-  
ning at 4 o'clock tomorrow afternoon  
in the gymnasium, and there will be  
a stunning fashion show at all hours  
in the millinery room on that floor.

On the sixth floor there will be wax  
works in the sewing room. Whether  
Mrs. Jarley will be present, I cannot  
say, but I strongly suspect that this  
is a clever scheme to show off those  
charming frocks that the association  
girls have been making in the dress-  
making department.

There will be an orchestral concert  
and art tableaux in the music room  
and a studio tea in the art room on  
this floor going on simultaneously  
and at the same time—a perfect be-  
wildering of attractions, you see.

On the seventh floor there will be per-  
haps the most novel of all demon-  
strations—a model hospital ward will  
be fitted up where, under the super-  
intendence of Dr. Mary Putnam and  
a corps of trained nurses, actual  
demonstration of how to treat such  
commonplace and everyday accidents  
as burns, scalds, fainting, injury by  
live electric wires, etc., will be given.  
You will see these patients convalesc-  
ing from nervous breakdown, typhoid  
fever, grippe and pneumonia, skill-  
fully and scientifically treated. There  
will be children suffering from such  
infantile diseases as measles, croup  
and scarlet fever and you will see ex-  
actly how they are cared for.

Now do not for a moment imagine  
that these patients are to be bor-  
rowed from hospitals for this  
occasion and that they are actually  
suffering from the dire diseases above  
mentioned. Oh, no! They are merely  
playing the part of patients and con-  
siderable fear is entertained on the  
part of the anxious attendants lest  
the mischievous child who is sup-  
posed to be suffering from  
fever, or the demure maid reclining  
in her convalescent's chair, forget  
themselves so far as to smile cheer-  
fully and happily at lookers-on.

—All linen heavy double damask, with  
scalloped edges. A limit to purchasers on  
this introductory item, too. \$1.25 for Friday.

—The most startling linen value that has come from  
Bullock's linen store in months—and for the purpose,  
with these others items, of drawing a great number  
of buyers into closer and immediate touch with the unusual  
variety of other good linens that is here for buyers to choose  
from. The department has grown wonderfully the past year.  
—These napkins are all linen, hemmed. A quality that would  
make you wonder at twice 60c dozen. We shall be forced to  
limit purchases at today's price—60c dozen.

item Friday, because it is very special when Andrew  
Jackson chairs sell for \$4.35.

—A famous old oaken piece of furniture that because of its  
rugged appearance and its "practically impossible to wear out  
qualities"—is particularly adaptable for out door use, and for  
comfort it cannot be excelled—with its broad-roomy lines.

—You have wanted one of these chairs for your porch, time  
and time again. This is an opportunity to buy at a saving of  
25 per cent.

prodigality of intellectual good things  
gave one mental indigestion.

If clubs will present such over-ful-  
filling programs, it would be well to  
strictly confine the time and I know of no  
better way than to appoint an official  
time-keeper whose business it  
shall be to promptly touch an electric  
buzzer the moment the time of each  
speaker expires.

This would relieve the president of  
the embarrassing duty of calling down  
a speaker, would prevent one orator  
from intruding on the time that  
rightfully belongs to another, and  
would be absolutely automatic and  
hence without sentiment—other than  
perfect fairness all around. Try it,  
ladies!

Motorcycle Patrolman Arrests Mar-  
borough School Girl for Speeding,  
and She Sings Him in Court.

If Motorcycle Patrolman Gardner  
had not sworn to do his duty when he  
joined the department some years  
ago, it is very probable that Miss El-  
izabeth Babcock, about 17 years old,  
would not have had to pay a \$25 fine  
for driving her automobile too  
fast. Gardner, however, has never  
taken an oath to return for his gloves,  
as he couldn't bribe any one to get  
them for him when he left them by  
mistake in the courtroom, he rode  
away, after Miss Babcock paid the  
fine, without them.

Gardner, in the jargon of the bou-  
levardees, allows that in the pretty  
young "prisoner" there is some class.  
Miss Babcock doesn't think quite so  
well of Gardner, however, for after  
she had dropped five \$5 gold pieces  
on the clerk's table in the Police Court  
shut down to him and hissed: "You're  
horrid!"

Patrolmen are supposed to keep  
their nerve in the face of any dan-  
ger, and Gardner has never been ac-  
cused of exhibiting the white feather,  
but he had never before faced such a  
charge, and in confusion he dropped  
his gloves and hurried away. He got

as far away as he could on foot, and  
was about to go still farther on his  
motorcycle when he discovered that  
his gloves were gone.

"I'll give any one a dollar who will  
get my gloves," he announced, excit-  
edly. No one moved. The cause of his  
confusion had spread, and he was  
about to double his offer when Miss  
Babcock was seen coming down the  
stairway.

Gardner's machine chugged violent-  
ly, and an instant later his voice was  
heard rapidly diminishing in volume  
as the machine sped away: "Never  
mind the gloves; I'll get them tomor-  
row."

Elizabeth Babcock lives at No. 1202  
South Alvarado street. She was on  
her way to the Marlborough School  
on West Twenty-third street to re-  
hearse for the graduating exercises  
when she was overtaken by Gardner.  
Her speedometer showed twenty-  
nine miles an hour.

FINISH OF A PATROLMAN.

Annoys Woman to Whose Home He  
Is Ordered, and Is Removed From  
the Force by the Chief.

J. E. Davis, appointed patrolman in  
April and assigned to a beat in the  
University district, was removed by the  
Chief yesterday afternoon. The chief  
acted on the complaint of a woman  
living on West Thirty-sixth street, who  
declared that under the guise of giv-  
ing her home extra protection, Davis  
greatly annoyed her with his atten-  
tions. The name of the woman who  
complained against the officer was not  
made public. Davis did not dispute  
her statement.

The incidents which caused the offi-  
cer's removal happened about a week  
ago, according to the report in the  
Chief's office. In Davis's detailed re-  
port, sufficient statements were found  
by the Chief to cause him to accept  
the woman's charges as well grounded.

Having been ordered to the house  
in answer to a call, the policeman is  
asserted to have taken advantage of  
the instructions and visited the house

many times during the same evening.

The husband of the woman who made  
the complaint is employed nights, and  
that fact, the woman charges, made  
the officer bold.

In his report he admitted having  
called at the house as late as 11  
o'clock to ask if she had seen any  
provers. The woman finally de-  
cided that she had more to fear from  
the patrolman than from the provers  
he seemed so intent upon capturing.

engagement between ships and shore in the war.

"The enemy's fire was well directed," he stated, "one shell bursting within an embrasure, while solid shot repeatedly passed through the embrasures and struck the crests and sides of the merlons, hurling masses of earth from outside among the gunners."

Still, "I am happy to inform you that no casualty of moment occurred, nor was material injury done to the battery."

In his report Capt. Eagle of the Monticello stated that he expended "fifteen rounds of grape, twelve 10-inch shot, thirty-two 10-inch shells, ten shells for thirty-two-pounders and forty-five thirty-two-pound shot, mak-

The Monticello was hit several times. She was assisted for a time by the armed tug Freeborn, which fired several thirty-two-pound shot, and was hit in return.

The attack on the battery had the effect to hasten the further strengthening of the place by the concentration there of about 2000 troops, having four heavy guns.

## SAYS BONDS MUST CARRY.

School Department Issues Long Statement.

Presents Tables and Other Important Data.

May Need Twelve New Buildings Next Year.

The school department yesterday gave issues bearing on the \$2,000,000 bond election to be held June 6, with data to show why the money is wanted and what is to be done with it.

Special attention is called to the rapid and steady increase of pupils in the city. It is declared that if next year's increase is relatively as great as this year's, eleven more elementary schools and an additional high school will be required. The statement follows:

**LOS ANGELES DISTRICT.**  
Table showing increase of pupils. If the increase in enrollment next year is relatively as great as that of this year, it will require eleven elementary buildings of ten rooms each to accommodate the new elementary pupils, and one high school of forty rooms to care for the high school pupils.

The rate of increase in elementary school enrollment during the last two years has been 27 per cent., and in the high schools it has been 45 per cent. At this rate the enrollment two years hence will be: Elementary, 63,119, an increase of 13,400; high schools, 12,476, an increase of 5,600. The increase will not be so great in the high schools, but will exceed the record of the last two years in the elementary schools. At the present rate of increase, the proposed bond issue should meet our needs for three years. Should they for any reason fail, this city would be in educational confusion for the next few years. We now have fifteen half-day schools. Without relief the next year the number will reach seventy-five. Thirty-seven temporary buildings are now in use. To increase this number would be poor economy.

We need more and better school grounds, better school buildings, better equipment, and better pay for teachers. These will all be affected, either directly or indirectly by the results of the bond election.

### FOR WHAT NEEDED.

**ELEMENTARY SCHOOLS.**  
For additions to old sites at Gates Street School, Logan Street School, Alpine Street School, Ramona School, Cahuenga School, Custer Avenue School (intermediate), Normandie Avenue School, Thirty-sixth Street School, Twentieth Street School, Hobart Boulevard School, Sixty-eighth Street School, South Park Avenue School, Hoover Street School.

For new sites, buildings and equipment: Northwest of Normandie Avenue School, between Manchester Avenue and Athens Schools, east of Euclid Avenue School, northeast of Evergreen cemetery, San Pedro city, Boyer Avenue School, Boyle Heights Intermediate School, McKinley Avenue and Fifty-second Street Intermediate School, Cypress Avenue section.

For new buildings, additions to present buildings and equipment: Custer Avenue Intermediate School, South Park Avenue School, Utah Street School, Roswell School, Mar-engo Heights School, Lankershim School, Sherman School, Thirty-sixth Street School, Western Avenue School, Fifty-second Street School, Hollywood School.

For converting present grammar schools into intermediate schools. For additional sites not yet determined, and for building and equipment of same.

Total bonds required for elementary schools, \$4,160,000.

**HIGH SCHOOLS.**  
For additions to old sites at Los Angeles High School, and Polytechnic High School.  
For additions to and equipment at present buildings and for new sites, buildings and equipment: Los Angeles High School, Polytechnic High School, Hollywood High School, Manual Arts High School, Wilmington High School, Gardens High School, East Los Angeles High School, western section High School (site).

For additions, buildings or equipment, as emergency requires.  
Total bonds required for High Schools, \$560,000.

**ADDED TAXATION.**  
On present assessed valuation of the district, the additional tax rate will be 3-1/2 cents on \$100, or 33 cents on \$1000, for the first year, and will decrease yearly until the bonds are paid off. As the bonds run for ten years, the larger share of them will be paid by those who profit by the advantages secured through adequate school facilities. The appreciation in property values due to high class school accommodations, will greatly outweigh the burdens of additional taxation. To advertise to the country that we cannot care for our school children is to invite the people to desire here to remain away. To offer anything less than the best school facilities would not be creditable to either the teachers or the citizens of Los Angeles.

**COMPARATIVE STATEMENT.**  
Special school tax levy, 1910-11, including payment of interest and bonds, as well as current expenses of conducting the schools in cities and towns in Los Angeles county:  
Los Angeles, \$0.16; Burbank, \$1.10; Claremont City, \$1.41; Compton, \$0.77; Covina, \$0.71; Downey, \$0.56; Glendale, \$1.08; Huntington Park, \$1.71; Long Beach, \$0.87; Lodi, \$0.81; Monrovia, \$1.27; Ocean Park, \$0.27; Pasadena, \$0.73; Pomona, \$1.37; Redondo, \$1.43; San Fernando, \$0.81; Santa Monica, \$1; South Pasadena, \$0.81; Watts, \$0.86; Whittier, \$0.82.

**SUMMARY.**  
(1) The bonds are necessary if Los Angeles is to care for her increasing school enrollments if she is to hold her rank with other leading cities of this country, in the growth and development of education, and if she wishes her phenomenal growth in population to continue.  
(2) The additional tax on the property caused by these bonds is nominal, while the good to be derived from them is incalculable.  
(3) Those who profit most by the advantages offered through these bonds will have to pay either directly

or indirectly the larger part of them.  
(4) To defeat the bonds would throw Los Angeles into confusion, educationally, and retard her educational and material growth many years.

### WILL DIG FOR HITITES.

Noted Archeologist, Touring Coast With Lectures, to Commence Important Excavations in Old World.  
Dr. William J. Budge, who will speak for the Friday Morning Club today, expects to go to Asia shortly for the purpose of excavating certain ruins which he hopes will prove to be the ancient habit of the Hitites.

Dr. Budge is an archeologist of considerable note and is considered one of the scientists of the century. He is here today to talk to the ladies of the Friday Morning Club about the Panama canal, but the only reason he is filling the chair of scientific literature at Berkeley at this time instead of being abroad re-excavating dead nations or prehistoric monuments is that, in his capacity as vice-president of the National Society for the Preservation of Natural Parks, he has been ordered to take a hand in the Hetch-Hetchy controversy.

While in Italy recently he was the guest of the papal secretary, who is a great lawyer. He was also a visitor at Turin University and while there he witnessed the conferring of a degree, a ceremony conducted in medieval costume.

He will speak at Pasadena May 30, for the Twilight Club, of his observations in the canal zone.

### THEIR RELATIVES WEALTHY.

Chinamen, Convicted of Conspiracy, Released on Bonds Which They Are Able to Command.

In the United States District Court yesterday the matter of sentencing Ng Fung and Wong Wing Hing, the Chinese convicted of conspiracy, was postponed until next Thursday at 12

o'clock. It is understood the cases will be taken to the Circuit Court of Appeals, and an effort made to have the men released on bond, if the court will consent.

Wong Wing Hing is a merchant at Anaheim, and Ng Fung is a wealthy brother in Honolulu and Canton. Ng Fung said yesterday that he had just received a cablegram from his brother, a rich merchant in Canton, that he had suffered a loss of \$218,000 by a fire that destroyed his business block. Both men are able to command bail.

### DENIES ALLEGED ATROCITIES.

Americans Revolve Great Consideration in Ensenada, States Foreman of Large Ranch, Who is Visiting Here.  
A strong denial of statements regarding alleged atrocities treatment of Americans in Ensenada, was made last night by H. Edwards, foreman of a 1000-acre ranch, owned by the Ventura-Ensenada Land Company, near the Mexican city, who arrived in this city yesterday.

"Gov. Vega has shown all Americans the greatest consideration," said Edwards. "The city has been menaced by the insurgents, made up of renegade Americans, but Vega has done all he could to protect American lives and property."

"There is no truth in the story that an American and a Norwegian were forced to dig their own graves and then were shot and buried in them, nor in the report that Americans were not allowed to conduct business on their own dock property."

"This forbearance is remarkable," when is considered the treatment the American socialist-negatives crowd gave the citizens of Tia Juana. The bandits took the city, opened the stores and allowed American tourists to take all the goods they wanted for a dollar or two. Whole armloads of goods disappeared.  
"Vega," is a brave and efficient, has 200 soldiers, well armed and efficient, and he will never give up Ensenada. It

WELSH CHOOSES  
THE REFEREE.Neither Fighter Objects to  
Official Selection.Wolgate's Hand Hurts and  
He is Resting.San Francisco Fans Say Ad  
Boxes Better.

(BY DIRECT WIRE TO THE TIMES.)  
SAN FRANCISCO, May 18.—(Exclusive Dispatch.) Jack Welsh was chosen this afternoon to referee the bout between Ad Wolgate and Frankie Burns that takes place at the Cofroff's new open-air arena a week from Saturday afternoon, May 27.

Only two names were considered in the discussion, those of Welsh and Eddie Smith of Oakland, and as the managers of both lightweights showed a preference for Welsh, the selection was clinched.

It was a novel discussion, not a long-winded office conference lasting for several hours, but a chat over the telephone that was finished within ten minutes from the time Cofroff first talked to Perkins until Welsh accepted the job.

"It was the speediest conference for the selection of a referee that I ever held," Cofroff declared. "And about the most novel proceeding of that sort that I ever went through."

Complaining that his left hand hurt him when he had finished four easy rounds with Hobo Dougherty the first work of the kind that he has undertaken since he opened his beach camp, Ad Wolgate declared today he would do no more boxing until next Sunday.

"My hand does hurt," he said in his dressing-room, "but the funny part of it all is that it does not appear to bother me when I am in a fight. In sparring in the gymnasium, however, it, at times, pains me, and, as there is not any particular haste for me to get going to that sort of work for this match, I am going to cut it out for a couple of days."

The trouble started when Wolgate hit his hand against Dougherty's shoulder and set the old ache at work once more. He didn't let that interfere with the afternoon's schedule in the least and finished up as usual with the floor exercise that is all his own.

Wolgate's boxing has improved remarkably since the day that he fought Nelson at Richmond. He blocks better, but above all things, he aims at mark when he lets a punch go. Formerly, the Wolgate blows were more or less haphazard. Today he punches straight and true, and, what's more, lands. He has, also, a short punch for his fighting that resembles, to some extent, the work of Joe Gans, and also the upreach of Jack Johnson.

**ROUGH TRYOUTS FOR AMBITIOUS BOXERS.**  
If there is any boy who thinks he is a scrapper and is not being given a chance to make good or if there is any fighter who thinks that he is being neglected, Uncle Tom McCarey is not to blame.

Yesterday afternoon the Vernon training camp was turned over to the ambitious youngsters and known ring products who have sought a chance to show what they are made of and all who turned out for a try-out were accommodated.

Long before the time set for the boys to start work the fans began congregating and a large crowd gathered on hand when Secretary George Hancock sent the first pair of youngsters away.

Each boy was enthusiastically applauded and on several occasions the spectators took it upon themselves to decide the winner which selection usually met with the approval of Secretary Hancock who was in charge of the impromptu affairs.

In the first bout Jack Lawrence and Young Eddie Hanlon went to it so industriously that a knockout would soon have been scored had it not been for the referee's cautioning them. As it was Lawrence drew blood from Hanlon's nose in a stream.

Bert White, a brother of Herb White, made a goat in his act as he fell at the start of his bout with Fred Hamann but at the close the honors were even. Both will probably be seen in action later at Vernon.

The third bout stirred up the spectators and brought the most applause of the afternoon. Arno Miller tore into Young Castro like a starved tiger and for the first round the latter was able to keep up the pace but in the second round Castro went down for the count and lost the decision.

He sprained a tendon in his leg as he fell and he had to be helped from the ring.

Bern Batture and Jimmy Fields, two featherweights put up a fair exhibition, but it will take a lot of coaching and practice to smooth out the rough places in the two lads' fighting, before they will be ready for the big entertainments at Vernon.

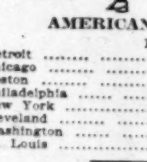

In the last bout Sam Morris and Joe Marsh clashed and had Marsh known anything about the Marquis of Queensberry rules or what a foul was the bout might have gone the two rounds limit. The contest was stopped and Marsh was advised to read the rules and practice up boxing with himself in the looking glass before again attempting to work in public. Still, maybe in this rough there is a diamond waiting the trimming.

**MILL IS BURIED.**  
CHICAGO, May 18.—(Exclusive Dispatch.) The body of the late Senator William H. Miller was buried today in the Lincoln Park cemetery.

Maloney Beats Langdon.  
NEW YORK, May 18.—(Exclusive Dispatch.) In a fast ten-round bout in which scientific boxing was freely mixed with hard punches, Tommy Maloney earned a victory over Tommy Langdon of Philadelphia at the Twentieth Century Athletic Club tonight. Maloney was the aggressor throughout and wore down Langdon until the clever Philadelphia was weak and his punches wild.

Extra! Mr. Wad Sees Hen Berry Get a Pitcher--But It Wasn't That Kind of a Pitcher!!

WHERE WE GET OFF.

BY J. ALEX. SLOAN.  
The temporary retirement of Abe Attell has caused a lot of rattling and busting in the featherweight division. A half dozen fighters have already laid claim to the Attell honors providing the little Jew can't recover from the injury he received in the battle with Tommy Kilbane at Cleveland some time ago. The latest noise along this line comes from Boston, Jimmy Walsh is the claimant and he accompanies his bid with the information that he is champion 118-pound boxer of the world and now ready to meet any one of the featherweights for anything that they might care to stake on their chances of beating him. Walsh goes several steps further and mentions by name four of the most likely 122-pound men in the business today. But Joe Rivers is not mentioned, any of which goes to show that the little Mexican is not any too well-known in the East yet. But there is a time coming.

All the boys who took part in the workout bouts at Vernon today were pleased at the treatment received at the hands of Secretary Hancock of the Pacific Athletic Club, who had the programme in charge. They were given a chance to show what they could do and the majority of them made a good enough impression to be given a chance later when some of the big shows are being staged.

Jack Johnson sure made a sympathetic speech in New York when he got hauled up before Magistrate Breen for speeding. And Jack was about right when he said that ever since he got caught in Frisco for ignoring the speed laws, he has been subject to awful persecution and that it was about time for the business to stop.

At Johnson is a negro and has a mania for speeding, but he lost a lot of his pepper in the automobile line when he spent that twenty-five days in jail in San Francisco. Still the cops in every city in the country know that if they can just pinch the big smoke whether he is breaking the law or not they will be ushered into the limelight. But the magistrate or the cops that fines him in the future will have to be absolutely sure that he is guilty of speeding.

The fight promoter who lands the McFarland-Mat Wells bout will have almost as good a card as the Volante-McFarland contest promises to be. Wells's defeat of Welch has made him a big card for this country, and that he is content to clean up the American lightweight who will meet him at his own scale figures is shown by his willingness to meet anyone. Of course, a lot will depend on what he does in the ten-round contest scheduled for Saturday night. McFarland cannot beat this figure unless he is willing to let the vitality that counts when in the ring.

Volante would enter into an agreement to meet McFarland right away if Pucky could only get down to 123 ringside. The 133 at 3 o'clock in the afternoon means about 127 or 128 ringside, just the mark that McFarland is at his best, although he can get as low as 125 ringside and still be in the ring.

GOSSIP ALONG GASOLINE ROW

Baron Von Hempel is in town. He drove his Buick all the way from Lakewood Inn and it took him two days to make the run. He tackled up some few feet, placed arrows wherever The Times arrows had blown down and reached this city happy but covered with paint and wearing a big overgrown duster which was given to him by an enthusiastic officer who is with the soldiers at Lakeside where the United States men hold complete sway.

This way for the milk-fed chicken. The Baron is here and can talk of nothing else but The Times tour and the reception that was given the auto.

Charles F. Walsh and the Autocar truck hold a few records. That run of 24, 16m. from Santa Ana here was going some. The truck's run from San Diego will not be broken this week or next, it is safe to say.

Trout fishers are hiking to the hills in search of sport and are catching the speckled beauties. The waters are said to be alive with the trout and much good sport is announced.

Bill Ruess returned from Santa Barbara yesterday after a big business in the Channel City. He is selling many Pope-Hartfords this year and is making a real hit with the classy line.

Just think of it, we are soon to have 1912 cars in our midst and the year is not six months old. Well the cars are better than ever but it would suit some of us to a queen's taste if the new cars came about November instead of June.

BOWLING

The second night's play of the Los Angeles Athletic Club tournament was rolled on the Grand alleys last evening. The boys are pretty well bunched, and there will surely be many a hard fight for the club championship is decided. "Orator" Lou Guernsey has not yet struck his stride, but will certainly begin "tingling" on right after a match or two. Sawyer or Helmer are picked by many to win, while others say Welton or Holgood. It is difficult at this stage to figure the best one, as the low man is not far from the high one.

Jimmie Pearne, that good pin smasher of the Orpheum team, has been a trifle under the weather for the past week, and has, consequently, not taken part in the games rolled by his team. His absence is keenly felt by his team mates, as Jimmie has always delivered the goods.

What do you think of the Woodhill-Hulse team journeying down to Venice Wednesday night and grabbing two games from Bob Lacey's league leaders? Lacey and Aldridge were out of the team. His absence is keenly felt by his team mates, as Jimmie has always delivered the goods.

A meeting of the Commercial League has been called for Saturday evening at the Cosmopolitan alleys. At this time the question of making application for membership in the Western Bowling Congress will come up for discussion. A committee will be appointed to solicit signatures and the directors will decide as to the distribution of same.

When a bowler becomes a member of two or more teams in different leagues that have conflicting dates, it is bad business. Every bowler likes to win and when it comes to a time to choose between the two, he is naturally going to shoot with the team that has the best standing in its respective league. This is not fair to either league; for example: John Doe belongs to teams A and B in two different leagues. He starts off with team A in League X and during the first part of the tournament his team wins about half of their games. Then League Z opens and his team in this league gets away to a good start. Finally, the evening arrives when both teams are scheduled to play, and of course he rolls with League Z. This leaves his team in League X crippled, and they probably lose. Is this fair to the teams who have previously met his stronger line-up? Give this a little thought, boys.

New Class "A" bowlers are being developed every day. Bishop, a member of the Jevne team in the Commercial League, is the latest pin smasher to display his league form. Rolling on the Cosmopolitan alleys Wednesday evening in the Jevne-Harrie & Frank match, Bishop chalked up an average of 192 for the five games. At present, he tops the individual average column of his league with 193 9-10. If he keeps up this pace some major league will draft him.
